Subject Public Information Request

Mr. Sharpe,

I wanted to acknowledge that I received your hand delivered request. I looked back through my emails and also checked the junk emails and did not receive a request for September 3 or October 14.

We will have the Commissioner Court Minutes and documents on our web page very soon. I have a new program that I am working in diligently to make the records available to the public. It will be a work in progress. I have started with the most current and I am working my way back through 2026. For the time being, I will provide you with the website. Just know that it is not available for the public until it is loaded on our website. The website is https://freestone.easydocs.us.

Other than our Land Records and Judicial County Records, the only records that I have are items that have been approved in the Commissioners Court. I do not have additional Data Center or Solar Farm records.

Thank you,

Renee Gregory
